The Purpose of Jazzerrainious

Simply, to provide Jazz (which I believe by now you know is my favorite music) to the global population.

Why?

There are several reasons:

- To break the bonds of selfishness:
 - I am not the exception when the thought has cross my mind “What’s in it for me?”. Many times we have fell victim to this sin that is one of the dividing elements of missed opportunities, loses, hate, war and the destruction of ones country is not ones self. There are time when the needs of the many, out weight the needs of the few.
- Legacy?
 - Maybe so, but I was trying to lead by example with sending music rather than hatred and bullets, which seems most of the world would rather do lately.
- Wish:
 - Many have thanked me for my efforts with Jazzerrainious. If I had one wish, I would want people to stop thanking me and pass it on. Not only Jazzerrainious but the positive feelings it produces forward. That would be the best legacy any person could leave his fellow man and woman.

Thanks Again
