

ポーク通信

We will introduce internet radio which is free and does not require member registration and jazz can listen.

If you have an internet environment you can listen, so please refer.

Recommended for people who want to shed jazz as BGM.

How to listen to Internet radio on iTunes

Listening to the radio on iTunes is easy. When you launch iTunes, just select the Internet radio and pick a stream.

Below, all images will be PC version.

Jazz 's iTunes Internet Radio Recommendation 5 Selection

I will introduce five recommended items from among over 400 jazz streams of iTunes.

5th place Jazzerainious

Jazzerainious is a streaming broadcasting station from Southfield (USA).

It is not pure jazz, but it is characterized by dealing with jazz with a wide range of stance such as Soul, Fusion, Rare Groove, Acid Jazz, Club Jazz.

Recommended for those who want to listen to jazz widely.

4th place JAZZ.FM91

JAZZ.FM 91 is a Canadian FM broadcasting station.

"Listen Live" "High Standards" "The Grooveyard" "Oscar Peterson" 4 channels.

The concrete contents of 4 channels are as follows.

- **Listen Live** : Current broadcast
- **High Standards** : Standard jazz in vocal center
- **The Grooveyard** : Relatively recent jazz
- **Oscar Peterson Channel** : Only a pianist's **Oscar Peterson** takes a channel

Why is Oscar Peterson going to appear here, it seems to be related to Oscar Peterson being from Canada.

3 place JAZZRADIO.com

As its name suggests, Jazz specialized streaming broadcasting station.

There are more than 30 channels in all, so you can listen to any kind of jazz regardless of which channel you choose.

Recommended is "Piano Trios" channel.

It can be said that it is perfect for people who like piano and those who want to listen to jazz in the center of piano, as they can enjoy trio performance centered on piano.

[JAZZRADIO Official website](#)

2nd place CALMRADIO.COM

You can choose your favorite stream from 10 channels.

Recommended is "BE BOP" channel.

Bebop (also known as bop) is the style of jazz played in the 1940s and is still used as the basic style of jazz. For the "BE BOP" channel, it will take the name performance from the 40th to the 60th one after another, so if you want to listen to the old basic jazz, it would be nice to choose this channel.

1 place WRTI - jazz

The most recommended on iTunes radio is kore.

The selection is good enough to say the best in the iTunes radio, and the impression that a good song takes a good balance from standard to recent one.

However, since the song name or artist name of the song being played is not displayed in iTunes, if there are songs you care about, search by music recognition application such as Shazam or search from the Playlist on WRTI's homepage Please give me.

Jazz Internet Radio Summary

There is also a radio function for "flat-rate service" such as "Apple Music" and "Spotify", but it is paid or functional restriction and it is hard to use something.

So, this time I tried picking a jazz radio channel on a theme of being free and not requiring membership registration.

Personal recommendation is still WRTI.

It is just right to sink in the workplace, so please try it if you like.

Over here, we sent you 5 jazz internet radio recommendation choices!
