

Carolyn Whitaker

A soul that if you didn't know, you missed a special person.

Carolyn was a person who contributed to life with all she had. A smart and hard worker, she retired when many were just trying to figure out what retirement was. Carolyn loved to travel and her favorite sport was golfing and football. As a personal comfort to me, Carolyn was that ear of listening that you would need from time to time. Her advice was always sound with the basics of common sense that few use today. Our heavenly father called Carolyn on September 22, 2021. I was fortunate to know Carolyn over many years. Carolyn, I will never forget you.
