THE

JANUARY 6 REPORT

IN SUMMARY

I am sure I was not the only one however, if I was surprised, it was of the planning and support Trump had in this coup attempt. It makes you ask many questions of this

doubled standard system especially being a person of color. You can't help notice the change in standards toward minorities and women. Even though I was not there, I can understand the feelings those people had in Europe when Hitler and the Nazis were taking over the world.

Among all the addictions, the quest for money and power seems to always be the end results. Living close to the US-Canada border seems to be my last results as the freedoms that whites became entitled with at birth, I have to fight for and seem to be losing everyday. Even though I am a part of the struggle, I am also fortunate. Being in this great state so far my rights have been secured. I can thank much of this to the governor and her authority and efforts in protecting the people that she was almost killed for.

If I am afraid of anything, it is God himself. I am surprised he has not sent another astroid to wipe the slate clean again from the frustration of the action or lack thereof of man. With the creation of this planet with all its versatility, beauty and color due to the rotation of the planet and sun, there are people who literally expect to have one race with one color.

In the end there is nothing that can be done. Love can only go so far. It boils down to dealing with the strongest force in the universe, survival.

Bill Sommerville
